

## product name **SOCIETE**

Societe is final product of natural fermentation. 100% organic and 15% organic nitrogen +68% L-Aminoacids includes. 100% Safety and environmental BIOACTIVE. Instead of chemical nitrogen, can be advised with less dosage and gets better results regarding to vegetative growth. Major 3 head lines we consider Societe;

- \* Fertilizer Addition active
- \* Bioactivator, Energy Reactor
- \* Chelator for nutrients

It is a kind of bioactivator and activates life circulation of plant. Encourages the vegetative growth and if you enrich with Ca, K and Micronutrients while spraying, you will get very hard plant stem, leaves, fruits and healthy roots. If you want to fix fungicide problems, Societe is perfect natural defence with; Ca+Fungicide Active+Societe solution. If you mix Societe +Seaweed that will be perfect natural heater in winter time. Meanwhile it will behave like antistressor. If you mix; Glutamine+Societe+Micronutrients (Zn, B, Mg, Mo, Cu, Mn, Fe) that provides perfect FLOWERING, POLLINATION, COLORING.

## dosage of **SOCIETE**

Societe is a bioactivator so with less dosage gets marvelous results.  
1Kg. / hectare for foliar application  
1-1.5Kg. / hectare drip irrigation for soil applications

## ingredients of **SOCIETE**

Organic Substance 87% (w/w)  
Organic Carbon 11% (w/w)  
Organic Nitrogen 15% (w/w)  
L-Aminoacids 68% (w/w)

pH 6-8

Notes:  
Powder physical form  
All growth period it can be applied  
No residue  
Keep airtight packages  
It can be mixed all kind fertilizer and insect and fungicide

*try once, always use...*
